

# Operating Instructions

# Full Sized Convection Oven

**Note:** Always follow all safety instructions affixed to this unit. Always obey local codes when using this oven.

1. Turn the propane valve at the tank on **very** slowly. (This step is where most problems are caused!)
2. Make sure the oven is plugged in.
3. Make sure doors are closed
4. Push blue switch (blower) to on.
5. Push red switch (cool down) to auto
6. Set temperature knob to the desired setting
7. You will hear a sparking sound. The oven is attempting to light the pilot.
8. It will not light on the first attempt
9. It may be necessary to repeat several times

**For any questions or concerns, be sure to contact us immediately.  
Thank you for your business!**
